Personal Suitability Report

Prepared for Margaret Chen · Recommendation date: 2 June 2026

CLIENT	ADVISER	RISK PROFILE
Margaret Chen	**James Okafor**	**Balanced (3/5)**

YOUR OBJECTIVES

Following our meeting on 21 May 2026, you asked us to recommend a tax-efficient strategy for investing £150,000 of accumulated savings over a medium-to-long term horizon, with the aim of supplementing your retirement income from 2031 onwards.

You confirmed that you have an adequate cash emergency fund, no short-term liabilities, and that you are comfortable accepting moderate fluctuations in capital value in exchange for the prospect of real growth above inflation.

AMOUNT INVESTED
£150,000
Lump sum

RECOMMENDED WRAPPER
ISA + GIA
£20,000 ISA / £130,000 GIA

RISK LEVEL
Balanced
3 of 5

PROJECTED VALUE (10YR)
£241,000
Mid-rate, after charges

RECOMMENDED PORTFOLIO

FUND	ALLOCATION	OCF
Vanguard FTSE Global All Cap Global equities, passive	52%	0.23%
iShares Core UK Gilts UK government bonds	22%	0.07%
L&G Global Inflation-Linked Bond Index-linked fixed income	14%	0.27%
iShares Global Property Securities Listed property	7%	0.22%

FUND	ALLOCATION	OCF
Royal London Short Term Money Market Cash & equivalents	5%	0.10%
Blended portfolio	**100%**	**0.19%**

WHY THIS RECOMMENDATION IS SUITABLE

01 The blended asset allocation matches your Balanced (3/5) attitude to risk and your capacity for loss as assessed in our risk questionnaire.

02 Using your full £20,000 ISA allowance shelters part of the portfolio from income and capital gains tax; the balance is held in a flexible General Investment Account.

03 A blended ongoing fund cost of 0.19% keeps charges low, leaving more of your return invested for growth.

04 The 10-year horizon allows time to recover from short-term market falls, consistent with your stated objectives.
