Dear Mr Lee Carwithen,

Re: Your retirement
CTI00015562 Scheme

The retirement pack we sent on 21/06/2024 contains important information to help you to turn your pension savings into a retirement income. It's important that you read this and consider all your options – it will help you get the best value from your savings. Under current legislation, you are entitled to draw your retirement benefits from your pension scheme at any time after age 55. As you are approaching your intended retirement age, we are writing to remind you of your options.

Buying a retirement income has been made easier recently and the information in the pack will help you to do this. You should also shop around to find the best possible income.

If you are considering drawing your benefits, we would strongly recommend that you seek independent, regulated financial advice and/or guidance from the free and impartial service set up by the government, known as Pension Wise.

Your options

Morgan Lloyd offers its pension scheme members various options when taking benefits, allowing you to tailor how you access your retirement income to suit your individual circumstances. The options are detailed in the pack of information we sent on 21/06/2024.

Please be aware that your options may vary depending on the assets held by your pension, so if you are considering taking your benefits or wish to discuss any of the options in further detail, please do not hesitate to contact us.

The different options available will have different features, different rates of payment and different charges. It is important that you understand these and the different tax implications associated with drawing your benefits.
